The Zero Game	94
The Zero Marker Games	96
Algebra: What's It All About?	98

Table of Contents

Number Sense

Introduction to Number Sense	103
Ten, Twenty, Thirty	106
Quick Calculations	108
Digit Directives: Maximizing Multiplication	112
Digit Directives: Diminishing Division	114
Digit Directives: Finding Fractions	116
Sharing the Whole	118
Numerous Remainders	121
Benchmarks for Estimation: Time	122
Benchmarks for Estimation: A Million Dollars and the Cost of Living	124
Benchmarks for Estimation: Apple and Microsoft	126
Mayan Mathematics	128
Tax Collector Exploration	133
The Game of Euclid	136
Decimal Double Digit	138
Decimal Digit Cover Up	140
Towers	144
The Fraction, Decimal, Percent Connection	147
Fraction Calculator Explorations	150
Resolving an Argument	166
Resolving Another Argument	168
Resolving a Third Argument	170
Calculating Patterns: Looking at Multiples	172
Exploring Divisibility Rules	176
The Game of 15	182
Nonconsecutive Number Boxes	183
Exploring Number Sequences	185
Postage Problem	189
Value of Words Revisited	192

Tools for Parent Advocacy

Introduction to Tools for Parent Advocacy	194
Tracking Our Children	197
Algebra for Your Child	202
Math Department Reference Sheets	207
How to Help Your Child with Middle School Math Homework	210
Math Generally Covered in Middle School	212
Dropping Math? Say Good-Bye to 81 Jobs	218
Uninformed Decisions	222
College Catalog Information	226
Useful Math Survey	230
