

## What You Need

For the class:
☐ 1 clear plastic sweater box or similar plastic
container, at least 4" deep
☐ 1 permanent black marker (wide-tipped, if
available)
☐ 1 roll masking tape
☐ 1 yardstick or meter stick
☐ 1 real-object graph, at least 9' long and 1' wide (see
"Getting Ready Before the Day of the Activity" for
details)
Note: The additional items below are needed for the
pictorial graph, for first and second grade students only
I sheet of paper, any color, about 6' long and 1' wid
$\square$ about 20–25 3" x 3" post-its, all the same color $OR$
paper and a glue stick
a pencil or crayon for each pair of students
For the learning station:
20–25 objects for students to test in the water, about
half that will sink and half that will float. (If pos-
sible, test them yourself ahead of time, since you
may not always be sure of which float and which
don't!) Be sure to include:
crayon that floats*
wax candle
strawberry basket
rock about 3" in diameter
ball that floats
cup with a removable lid
film canister with lid
oil-based clay
3 cafeteria trays
$\Box$ 1 restaurant bus tub $OR$ 2 standard dish tubs $OR$ a
water table (Whichever you use, it must be at least 6" deep.)
☐ water (enough to fill the tubs to about 4")
☐ 2 file folders
□ glue
☐ sink and float station signs (1 each—masters on
pages 20 and 21)
☐ 1 copy of the Activity Task Card for Volunteers
(master on page 22)
☐ a stack of newspaper or old towels for spills
(optional) a large sheet of plastic to put under the
station for spills

F

#### What You Need

bigger than 1" NOTE: You'll need 8 learning station. In t need one per student magnet for each pair the real-object graph broom and dust pan	ding at least 8 magnets that are to 12 of the magnets for the he concluding activity, you'll t, or you can get by with one of students if necessary.* from Activity 1 piece of paper that can be
or the learning station:	
☐ 30 objects for student half should be magn sure to include sever wood, and wax (incl clips, and a metal sp metal items which d	es to test with magnets, at least etic and half non-magnetic. Be al pieces of paper, plastic, uding birthday candles), pape oon. Use only a couple of o NOT stick to magnets, such and a piece of aluminum foil.

2 cafeteria tray	7S
------------------	----

- ☐ 1 restaurant bus tub *OR* 2 standard dish tubs *OR* a sand table
- ☐ sand (enough to fill the tubs to about 4")\*\*
- ☐ 2 file folders
- ☐ glue
- magnetic and not-magnetic station signs (1 each—masters on pages 33 and 34)
- ☐ 1 copy of the Activity Task Card for Volunteers (master on page 35)
- (optional) a tarp to put under the sand table

### **Activity 3**

### What You Need

#### For the class:

- ☐ 1 two-liter clear, colorless plastic soda bottle
- ☐ 1 pair of sharp scissors to cut the two-liter soda bottle
- ☐ 2 clear cups (each about 1 cup volume)
- ☐ several paper towels (coffee filters, about 10" in diameter, flat or cone-shaped may be substituted) for the class demonstration
- 1 paper towel for each pair of students
- ☐ broom and dust pan

<ul> <li>□ 1 restaurant bus tub OR 2 standard dish tubs OR a sand table from Activity 2</li> <li>□ sand (enough to fill the tubs to about 4")</li> <li>□ at least 5 colanders/sifters/strainers with different-sized holes (for example, berry baskets with differing mesh, flour sifter, salad spinner basket, colander, various strainers). Find sifters first, and then choose beans. See "Getting Ready Before the Day of the Activity" for more information.</li> <li>□ at least 3 different-sized beans (lima beans, split peas, red kidney beans, etc.) See "Getting Ready Before the Day of the Activity" for more information on the sizes of beans you'll need.</li> <li>□ 4 plastic cups for scooping sand</li> <li>□ 4 box lids or cafeteria trays to catch sand as students sift</li> </ul>
☐ 1 copy of the Activity Task Card for Volunteers (master on page 46)
<ul> <li>(master off page 40)</li> <li>(optional) newspaper or a sheet to cover the sand table</li> </ul>
<ul> <li>(optional) a tarp to go under the sand table</li> <li>(optional) tiny shiny confetti stars or other shapes</li> </ul>
Activity 4
What You Need
For the class:  ☐ 1 waterproof tray with 1" high sides, at least 9" x 13"
black construction paper to fit on the bottom of the
<ul> <li>black construction paper to fit on the bottom of the tray</li> <li>1 pair of sharp scissors to cut the two-liter soda</li> </ul>
